Welcome to Sockcn

Sockcn is a professional sock manufacturer specializing in custom and bulk sock production for international brands, retailers, and wholesalers.

With years of experience in OEM and private label manufacturing, we focus on delivering stable quality, flexible customization, and reliable lead times.

From Factory Floor to Finished Product

Our factory is equipped to handle a wide range of sock categories, including outdoor, sports, lifestyle, and functional socks. We work closely with our clients to turn design concepts into scalable production solutions. Whether you are launching a new brand or sourcing a long-term manufacturing partner, Sockcn is built to support your growth with consistency and transparency.

Quality
Control &
Lead Time

Each production stage follows clear quality checks, ensuring reliable lead times and product consistency for long-term cooperation.

Why Brands Choose Sockcn

- Application-driven sock development, not generic production
- Clear customization logic instead of vague promises
- Flexible MOQ aligned with brand growth stages
- Factory-direct communication with transparent processes

MERINO WOOL SOCKS 1

Designed for everyday and outdoor use, these crew socks combine natural temperature regulation with balanced cushioning for all-day comfort and reliable wear.

MERINO WOOL SOCKS 2

A lighter merino construction focused on breathability and moisture control, suitable for active wear and multi-season use without added bulk.

MERINO WOOL SOCKS 3

Developed with a warmer structure for cold conditions, providing enhanced insulation while maintaining softness and long-wear comfort.

ALPACA SOCKS 1

Alpaca Socks — Hollow Style Socks

Our alpaca socks are developed with a direct hollow knitting structure, designed to maximize the natural advantages of alpaca fiber rather than relying on heavy cushioning or dense loops.

Compared to conventional hollow socks, this construction delivers:

- Enhanced thermal insulation through stable air retention
- Lighter overall weight without sacrificing warmth
- Improved moisture management, keeping feet dry in cold conditions
- Naturally soft, low-itch comfort, even for extended wear
